Contact

ashwin-kumar.karnad@mpsd.mpg.de, ashwinkumar.k.rao@gmail.com, ashwinschronicles.github.io

Education

- 2022 BITS - PILANI UNIVERSITY, KK BIRLA GOA CAMPUS
Int. MSc. Physics and B.E Electronics and Instrumentation (Dual Major) CGPA - 7.5/10.0
- 2017 VVS GJ PU COLLEGE, MYSORE - CLASS 12th
KSEB Board. Marks : Physics - 100%, Chemistry - 96 %, Mathematics 99%
- 2015 DEMONSTRATION SCHOOL - CLASS 10th
CBSE Board. 9.8/10 CGPA
- All India Rank in competitive examinations: TOEFL (score) 106/120, NGPE- Top 30, KVPY-55, ComedK - 113, KCET - 592.

Interests

Experimental condensed matter physics (Device Physics).

Interfacing sensors with microcontrollers, Power management, electrical drive system, Instrument design.

Solving real-world problems using Distributed Ledger Technology.

Personal Projects and Experiences

Past Projects

- Studying the effect of high spin orbit coupling material in Josephson Junctions, at *Superconductivity lab, NISER, Bhubaneswar, India.*
- Design of a cryogenic probe for transport measurements at *Superconductivity lab, NISER, Bhubaneswar, India.*
- Design and Simulation of Battery Management System Algorithms for Electric Vehicle Applications. *Kaynes Technology India Pvt Limited, Mysore, India.*
- Simulation of IR seeker missiles and its counter measure in *Defence Avionics Research Establishment - DRDO, Bangalore, India.*
- **GrayBlock Power:** Decentralized financing of energy projects via smart contracts written on public blockchains. (workd as software developer and project coordinator)
- **Team Imitato:** Designing an exosuit to control a humanoid that can be beneficial in reaching in-accessible and non-human conditions. (Worked as Electronics, Communication and Haptics Control head)
- Determination of temperature of stars by analysing images obtained from a simple camera.

- **A Novel Stove Stand:** Designed and built a contraption to harness electricity (about 20W) from the otherwise wasted heat energy produced while burning LPG gas for cooking. It also reduced the cooking time.
- **Pressure sensitive mat:** A mat that can sense touch, enabling the determination of different poses such as Running, Jumping, Rightward-leftward movement, one leg hop etc.. (Worked in electronics and algorithm design).
- Past electronics team member of **Hyperloop India** and **Project Kratos**.

For more completed projects visit my web page, ashwinschronicles.github.io

Ongoing Projects

- **comfybike.de:** A simple and smart app that helps you find the optimal saddle height for your bike using image detection.

Honors and Awards

2023	1st place, Rad-Daten-Hackathon: worked on comfybike.de an app to suggest optimal saddle height for your bike using image detection.
2022	1st place, COMPAR EU hackathon: Created an AI-based solution for a data platform which helps patients manage their serious chronic illness.
2019	National top 30 in NGPE-19 exam (out of 11372 candidates).
2019	3 rd place in Open CBR Hackathon <i>organised by University of Leeds</i> .
2018	Presented a paper entitled “Algorithms in ancient Indian Mathematics and Astronomy” at “National Conference on Ancient Indian Knowledge: Science and Technology”, <i>National Council of Educational Research and Training, New Delhi</i> .
2018	Awarded Kishore Vaigyanik Protsahan Yojana (KVPY) 2017 Fellowship by <i>Govt. of India</i> .
2018	Offered Innovation in Science Pursuit for Inspired Research (INSPIRE) 2017 Scholarship by <i>Govt. of India</i> .
2016	Awarded ISCA Travel award by <i>Infosys Foundation</i> .
2016	Participated in 103 rd Indian Science Congress held at Mysore, India.
2016	Participated in IRIS science fair organised by <i>Intel</i> at Delhi, India.
2015	Participated in Rashtriya Kishore Vaigyanik Sammelan of 102 nd Indian Science Congress held at Mumbai, India.
2014	Participated in 41 st Jawaharlal Nehru National Science Exhibition at Chandigarh (Presenting the device stated as “A Novel Stove Stand”).

Articles and Publications

Review articles on scientific and hobbyist instruments on element14.com

“Gravitational waves really exist!”. Dream 2047 (Vigyanprasar), “Gravitational waves really exist!”. Dream 2047 (Vigyanprasar), 18(7): 28–29, Apr. 2016.

Relevant Coursework

Physics : • Electromagnetic theory I&II • Classical Mechanics • Statistical Mechanics • Quantum Mechanics I&II • Non-Linear Dynamics • Nanotechnology and Nanosensors, Part1&2 - Israel Institute of Technology (Coursera) • Topology in Condensed Matter: Tying Quantum Knots - DelftX University (edx) • Quantum Information and Computing • Solid State Physics • Atomic and molecular Physics • Nuclear and Particle Physics • Quantum Information Theory

Electronics : • Microelectronics • Microprocessors and interfacing • Digital circuits • Electric Machines • Specialisation on Semiconductor Devices - University of Colorado Boulder (Coursera) • Introduction to Data Science in Python-University of Michigan (Coursera) • Signals and Systems • Control Systems • Digital Image Processing • Modern Control Systems • Analog and Digital VLSI design • Transducers and measurement techniques • Electronics instruments & instrumentation technology • Object Oriented Programming • Introduction to High-Performance and Parallel Computing - University of Colorado Boulder (Coursera)

Skills

Computational: • Shell • Python (automation and data analysis) • LabVIEW • Matlab • JavaScript • \LaTeX • C++ • Git • Verilog • 3D CAD modeling (Fusion 360) • PCB Design (Eagle CAD)

Instrumentation: • Photolithography • DC Magnetron sputtering • Physical Property Measurement System (DCR and VSM)

List of Referees

1. PROF. KARTIKESWAR SENAPATI
Reader F
School of Physical Sciences
National Institute of Science Education and Research,
Bhubaneswar – 752050, Odisha, India.
Email: kartik@niser.ac.in
2. PROF. RAM SHANKER PATEL
Associate Professor
Department of Physics
Birla Institute of Technology and Science Pilani - K K Birla Goa Campus,
Zuarinagar – 403726, Goa, India.
Email: rsp@goa.bits-pilani.ac.in
3. DR. DHAVALA SURI
Postdoctoral Scientist
Technische Universität München,
Garching, 85748, Germany
Email: d.suri@tum.de
